Summary

A motivated and detail-oriented Software Engineer with a background in Computer Science and over one year of hands-on experience in supporting real-time HIS solutions. I have a proven ability to collect and translate user requirements, build scalable **RESTful APIs**, and manage deployments. Skilled in **Python, PHP, SQL**, and modern web frameworks. I am a tech-savvy Product Support Analyst and Data Specialist adept at analyzing, documenting, and communicating technical issues across teams to improve customer experience. I am passionate about leveraging technology to deliver innovative and secure digital solutions.

Technical Skills

- **Programming & Development:** Angular, Ionic, Node.js, PHP (Yii2), JavaScript, Python, RESTful API development and integration, Full-stack web and mobile application development
 - **Databases:** MySQL, SQLite, PostgreSQL, MongoDB (basic experience)
 - **Data Science & Analytics:** Data Analysis and Visualization (Pandas, NumPy, Matplotlib, Seaborn, Power BI), Statistical Modeling and Machine Learning, Data Cleaning
 - **Cloud & Deployment:** Firebase Hosting, AWS (basic familiarity), Docker, CI/CD pipelines, Git, GitHub, GitLab
 - **Tools & Frameworks:** Postman, Jupyter Notebooks, Visual Studio Code, Frappe Framework (beginner-level familiarity)
 - **System Integration & ERP:** API integrations (OpenMRS APIs), ERP customizations with beginner experience in Frappe Framework and ERPNext
-

Professional Experience

Health Information Systems Intern, Health Strat Limited *September 2023 - April 2025*

- Worked directly under the MESIS project, supporting the design, development, testing, deployment, and end-user support for HIS applications.
- Built and tested **REST APIs (PHP/MySQL)** for data integration with OpenMRS, ensuring smooth synchronization across systems.
- Conducted API validation using **Postman**, guaranteeing the security and reliability of data exchange.
- Supported a supply chain & inventory management system (**Qualipharm**) by documenting issues, testing fixes, and training users.
- Collaborated with developers and end-users to improve the usability of KenyaEMR mobile and web tools.

Web Developer Intern, Oracom Group *May 2022 - August 2022*

- Built and customized client websites using WordPress, ensuring functionality and responsiveness.
- Integrated essential plugins for analytics and **SEO optimization**.
- Participated in troubleshooting and updating websites for performance and cross-browser compatibility.

Graphic Designer, Kenyatta University *January 2018 - December 2022*

- Designed a wide range of digital and print materials, including posters, banners, and social media graphics, using Adobe Photoshop.
- Translated raw data into visually compelling designs and infographics for presentations and reports.

Projects

- **Qualipharm - Drug Inventory & Supply Chain Management System**: Spearheaded the development of a health facility inventory management web application to track drug stocks and supply needs. Built a responsive, user-friendly interface using **Angular** and **Ionic**, and developed **RESTful APIs** with Yii2 PHP Framework.
- **KenyaEMR Mobile Application**: Took the lead on developing a mobile client enabling field health workers to access and update EMR records remotely. Integrated the app with OpenMRS APIs to fetch and synchronize patient data with the national health EMR system.
- **Facial Recognition Authentication System**: Designed and built a facial recognitionbased login system using Google Vision APIs for secure authentication.

- **Data Analysis on National HIV Dashboard:** Conducted data review and interpretation of metrics on the National HIV Dashboard to support performance tracking and inform health program decisions.

Education & Certifications

- **Fundamentals of Data Science in Precision Medicine and Cloud Computing**, Stanford University (Data Ocean Program) (May 2025 - July 2025).
- **Data Science Certificate**, ALX Africa (2023-2024).
- **Digital Health: End-User Support (Helpdesk)**, eHealth Professionals Knowledge Network (2024).
- BSc. Computer Science, Kenyatta University (2018-2022).
- **Enhancing eLearning Using AI**, NRF & University of Nairobi (2021).
